

Word Search Bingo

How to Play

- First, give each player a Word Search Bingo card and a pen or pencil.
- Then, a host will draw words one at a time from a bowl or box.
- When the host calls out a word, they will give players 60 seconds to write down the word and find the word in their word search before calling out the next word.
- Players can still search for all previously-called words.
- Whoever finds 5 words in their word search first will shout “Bingo!”
- If the host called all 5 words on their word search and the player found each word, they win!

Card Setup

- Print out the word searches below and the word list at the end.
- Cut off the word list and title from each of your word searches. Otherwise players will already know what words are on their Bingo card!
- **OPTIONAL:** Place your word searches on construction paper. Or laminate your puzzles and hand out erasable markers so you can easily play the game again!
- Cut the words from the word list into individual pieces of paper, and put them into your box or bowl for the host to draw.
